

OPTANE™
MEMORY

GO SMALL, GET THE SPEED AND KEEP THE CAPACITY.

The performance and value your customers want.

Intel® Optane™ Memory: Smart and adaptable PC accelerator that takes the NUC family to a whole new level of performance.

FULLY INTEGRATED BY INTEL

Intel® Optane™ memory and 7th generation Intel® Core™ processor pre-installed and covered by **3 Year Intel® warranty** as standard on all NUCs + components.

SPACE SAVING

Does everything a DT Tower can do, in a fraction of the space.

MORE PROCESSING SPEED

without compromising storage capacity:

Increase system performance for hard drive access by up to 14x faster¹²³ as compared to HDD only.

¹PCMark* Vantage (HDD Suite)

²Tested on Intel® Core™ i5-7500 processor, 65W TDP, 4C8T, Turbo up to 3.8GHz, Memory: 2x4GB DDR4-2400, Storage: Western Digital* 1TB 7200RPM WD1003FZEX, Intel® HD Graphics 630, OS: Windows® 10 as measured against the same system with a 16GB Intel® Optane™ memory module. Tested with 16GB Intel® Optane™ memory engineering samples. Results may vary in final product, but we have a high confidence level that there will be no significant differences in performance.

³For more complete information about performance and benchmark results, visit www.intel.com/benchmarks.

Intel technologies' features and benefits depend on system configuration and may require enabled hardware, software or service activation. Performance varies depending on system configuration. No computer system can be absolutely secure. Check with your system manufacturer or retailer or learn more at intel.com.
